

Reasons to look at BPiT . . .

- You are spending far too much time bookkeeping.
- Your programmer is always "fixing" something.
- Your IT person speaks a language you just don't understand.
- You are not even using software to manage your business.

Here is how we can help . . .

- Provide cost savings by reducing the expense of IT support
- Educate and train your staff to work more efficiently with IT tools
- Provide Fortune 500 class IT support at affordable rates
- Drastically reduce or eliminate downtime
- Take an involved and pro-active approach to solving your business problems

If you decide to have **BPiT** develop custom software for your operational system, we will prepare a deliverables document that is easy to understand, along with a time-line and costs analysis that will make implementation simple and stress free. You will be in control for each step in the process.

Not Sure If a Virtual CIO is For You? . . .

Let **BPiT** conduct a low cost IT Audit of your company. Within 3-5 hours, we can tell you . . .

- Where inefficiencies are hiding
- Uncover time-wasting processes
- Reveal administrative redundancy

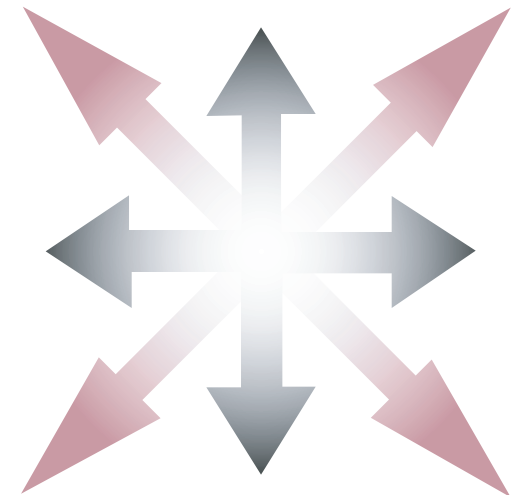

. . . and show you how much money you will save by switching to a **BPiT** driven solution.

Typically, implementation of just one of our suggestions more than pays for the IT Audit in either cost savings or increased profit. You have absolutely nothing to lose . . . **Call BPiT today to schedule an appointment.**

BPit provides cost-effective business solutions using the latest technology. We add value to our clients business by applying a simple philosophy . . . We help our clients help themselves.

BPit is able to provide superior Information Technology (IT) consulting services by first understanding the client need, then delivering the IT solution that requires the least amount of technical support. This underscores the philosophy stated above . . . Our goal is to supply you with software and tools that streamline operations, enhance your bottom line and enable you to work without IT collaboration.

Our promise to you is that we will always have your best interests in mind and that our goal is to enable you to do more, with less, thereby adding value to your business.

Get more done . . . Faster and more efficiently with **BPit**

At **BPit** we leverage current technology against cutting-edge software to give you an efficient solution to any business problem. We literally become your "virtual" CIO. Bridging the gap between your lack of resources and the wise use of technology.

We believe that business drives the technology . . . not the other way around. We are all familiar with the "tail wagging the dog" analogy, and we put an end to it at your company.

Simply put, we empower our clients to maximize efficiency and productivity without the need to be dependent on us. Call **BPit** today and start being more efficient tomorrow!
